# PRODUCT ENGINEERING

PUBLISHED MONTHLY

McGRAW-HILL PUBLISHING COMPANY, INC. 330 West 42d Street, New York, N. Y.

## INDEX TO VOLUME 12

*January to December, 1941*

## A

**AIRCRAFT:**

Aircraft design research.....*70
Allison engine. G. F. Nordenholt....*218
Autogyro .....*58
Auxiliary power for aircraft. V. H. Grant .....*128
Design factors influence production economy. J. E. Thompson.....*278
Ercoupe of formed and riveted aluminum sheet .....*55
Fabric attachments. A. M. Blamphin, pt. 1, *585; pt. 2.....*645
Messerschmitt 110 airplane. J. E. Thompson .....*338
Rolls-Royce Engine .....*456
Steel tube fuselages. Thompson & Lowe, pt. 4, *28; pt. 5.....*63
Wiring for aircraft. L. C. Jones.....*634
Aluminum unfired pressure vessels (Ref. Bk. Sheets) ..... 394
Antimony-lead alloys ..... 559
Armaments in the U. S. G. F. Nordenholt.*396

**AUTOMOBILES:**

Hudson clutch .....*518, *597
New design features of 1942, pt. 1, *516; pt. 2.....*595
Fontiac heating and ventilating system .....*599

## B

**BEARINGS:**

Ball and roller. G. A. Ungar, pt 1, *13; pt. 2.....*231
Ball and roller bearings under fluctuating loads. J. J. Pesqueira.....*138
Ball bearings for thrust loads in centrifugal pumps. Thomas Barish....*286
Ball, roller and needle bearings (Ref. Bk. Sheets), *47; explanation..... 139
Bearing in die-castings.....*414
Designs for applying press-fit seal units. R. J. Hinkle.....*370
Designs for speedier production.....*194
Pivot bearing design. J. H. Goss....*662
Porous metal bearings.....*496
Shorter sleeve bearings. E. R. Summers .....*530; appendix *619

**BOOK REVIEWS:**

A.C. Motors and Control Gear. A. J. Corker ..... 452
A.S.T.M. Standards, 1940 Supplement. 150
Airplane and Its Engine. Chatfield, Taylor & Ober..... 150
Anodic Oxidation of Aluminum and Its Alloys. Dr. A. Jenny. Trans. by W. Lewis ..... 274
Basic units in mechanical drawing. Hoelscher & Mays..... 688
Design of Machine Elements. V. M. Faires ..... 332
Electrical reference. E. S. Lincoln.. 688
Electro-Magnetic Devices. H. C. Roters ..... 332
Engineering Drawing. D. E. Hobart.. 512
Engineering Encyclopedia, 2 vols..... 572
Engineers' Manual of Statistical Methods. L. E. Simon..... 390
Glass the Miracle Maker. C. J. Phillips ..... 630
Graphical Treatment of Vibration and Aircraft Engine Dampers. C. H. Powell ..... 46
Handbook of English in Engineering Usage. A. C. Howell..... 46
Hankbook of Sleeve Bearings. A. B. Willi ..... 630
Hydraulic Machinery. E. Molloy..... 512
Industrial Plastics. H. R. Simonds.. 572

January ..... 1– 48
February ..... 49–100
March .....101–152
April .....153–216
May .....217–276
June .....277–336
July .....337–394
August .....395–454
September .....455–514
October .....515–574
November .....575–632
December ..... 633–692

* ILLUSTRATED

Inspection of Metals. H. B. Pulsifer.. 630
Kinematics of Machines. G. L. Guillet ..... 98
Machine Design. Bradford & Eaton.. 150
Materials Handbook. G. S. Brady.... 46
Mathematics for Engineers. R. W. Dull ..... 630
Mechanical Engineers Handbook. L. S. Marks ..... 688
Mechanical Vibrations. J. P. Den Hartog ..... 98
Mechanics. John W. Breneman..... 512
Mechanism. S. E. Winston..... 452
Metallurgy of Deep Drawing and Pressing. J. Dudley Jevons..... 390
Molding Technique for Bakelite and Vinylite Plastics ..... 630
Patent Fundamentals. L. H. Amdur. 332
Photoelasticity. M. M. Frocht, v. 1.. 572
Plastic Mold Designing. Gordon B. Thayer ..... 452
Plastics in Industry. Plastes..... 332
Practical Design of Small Motors and Transformers. E. Molloy..... 98
Practical Solution of Torsional Vibration Problems. W. Ker Wilson 390, 688
Pressworking of Metals. C. W. Hinman ..... 274
Prevention of the Failure of Metals Under Repeated Stress. Battelle Memorial Inst. ..... 390
Sales Engineering. Bernard Lester.. 98
Steel Castings Handbook..... 150
Strength of Materials. J. W. Breneman ..... 512
Switchboard Instruments. , E. Molloy 452
Tables of Sine, Cosine and Exponential Integrals. Nat. Bur. of Standards ..... 390
Temperature—Its Measurement and Control ..... 274
Vibration of Road and Rail Vehicles. B. S. Cain..... 98
Writing the Technical Report. J. R. Nelson ..... 46
Brake linings, pt. 1..... *2

**BRASS:**

Brasses, bronzes and other non-ferrous materials suited for screw machine products. D. H. Montgomery..... 104
Properties of 85-15 brass. Wilkins & Bunn .....*670
Brazed assemblies for ferrous and nonferrous metals .....*170
Bronze, commercial ..... 610

## C

Cams:

Swing cam design. P. E. Rudbeck...*438
Intermittent movements and mechanisms .....*488

**CASTINGS:**

Bearings in die-castings.....*414
Castings and forgings. Ernest Geiger. *72
Centrifugal, die, permanent mold and sand castings .....*178
Correct casting design. H. W. Kelly.*135
Die-cast product or screw machine product. Herbert Chase, pt. 1, *306; pt. 2 .....*353
Meehanite castings .....*667

**CAUSES AND CURES:**

Examples of design failures.....*25, *85, 121, 235, 293, 357, 413, 483, 529, *589, 649
Chain tensioning devices.....*660
Charts, log-log. E. N. Kemler.....*255
Clutches, eddy current. M. P. Winther..*131
Color psychology. D. L. Hadley..... *81
Connections, splined. S. M. Ransome....*119

**CONSTRUCTION TYPES AND ASSEMBLY METHODS:**

Brazed assemblies .....*170
Castings and forgings. Ernest Geiger. *72
Correct casting design. H. W. Kelly.*135
Designing for assembly. Ernest Geiger .....*248
Die-cast product or screw machine product. Herbert Chase, pt. 1, *306; pt. 2 .....*353
Formed parts .....*178
Rights and wrongs of details. Ernest Geiger .....*122
Screw machine products. D. H. Montgomery, pt. 1, *102; pt. 2.....*244
Steel tube fuselages. Thompson & Lowe, pt. 4, *28; pt. 5.....*63
Welded assemblies .....*154
Container dimensions. C. E. Frederickson.*253

**CONTROL:**

Control circuits ..... *50
Hydraulic circuits. P. N. Oberholtzer, pt. 1 .....*429
Jogging circuits for inching machines with motor drives. J. H. Lewis....*367
Liquid level controls.....*538
Photoelectric controls. H. J. Bichsel.*576
Copper-zinc alloys. Wilkins & Bunn, pt. 1, *432; pt. 2..... 471
Couplings, hydraulic. R. D. McCausland, pt. 1, *16; pt. 2 .....*79
Crank mechanism motions. W. F. Vogel, pt. 1, *301; pt. 2, *374; pt. 3, *423; pt. 4 .....*490

## D

**DESIGN CALCULATIONS AND STRESS ANALYSIS:**

Aircraft design. J. E. Thompson.....*278
Altering wound springs. A. H. Church .....*474
Aluminum unfired pressure vessels (Ref. Bk. Sheets)..... 394
Centrifugal governors. A. H. Church.*409
Composite members; how to find the stress in each material. W. I. Powell .....*242
Container dimensions. C. E. Frederickson .....*253
Critical speeds of shafts. M. F. Spotts .....*20
Design of hooks in bending and direct stress. M. F. Spotts.....*437
Determining springback. Sturm & Fletcher, pt. 1, *526; pt. 2.....*590
Endurance limit. H. W. Hamm.....*650
Fatigue strength. O. J. Horger, pt. 3 .....*22
Fatigue test results. E. C. Hartmann *74
Hollow shafts. J. M. Porter (Ref. Bk. Sheets), pt. 2..... 99
Log-log charts. E. N. Kemler.....*255
Pivot bearing design. J. H. Goss....*662
Shorter sleeve bearings. E. R. Summers .....*530

L605.1
P943
660991

**DESIGN CALCULATIONS AND STRESS ANALYSIS—Continued**

Stepped diameter shafts. A. F. Puchstein .....*632
Swing cam design. P. E. Rudbeck...*438
Unfired pressure vessels. E. L. Maguire (Ref. Bk. Sheets).....*391
Vibration damping. F. L. Schwartz.. *61

**DESIGN DESCRIPTIONS:**

Air mixer .....*112
Aircraft engine dynamometer.....*300
Airplane of formed and riveted aluminum sheet ..... *55
Autogyro ..... *58
Automotive designs in the 1942 cars, pt. 1, *516; pt. 2.....*595
Auxiliary drive for starting heavy rolls .....*638
Bending roll, horizontal..... *60
Blind laundry has prefabricated housing .....*641
Boring mill .....*350
Bus body, die-formed.....*467
Car door handles and wrench handles .....*406
Centrifugal pump .....*545
Changed designs eliminate aluminum.*644
Circuit breaker redesigned.....*546
Deep well pump.....*466
Deep-well turbine pumps..... *11
Diesel engine .....*228
Drill press converted into drum sander ..... *10
Dry cleaning plant fits 6x9 space..... *54
Electric fence controller.....*583
Electrical controls for complex hobber drives .....*294
Fan, electric, redesigned.....*582
Flanges for mounting bushing.....*546
Flashlight of transparent plastic.....*12
Floor polisher .....*464
Garbage disposal unit.....*580
Gearbroacher .....*108
Grader, diesel powered.....*298
Guard for coil winding machine.....*469
Gun mounts use less aluminum.....*640
Heater does triple duty.....*349
Ice cube compartment redesigned....*584
Ice cube tray of porcelain enamel....*470
Impeller of turbo-vacuum compressor.*406
Industrial trucks and ladders.....*405
Inspection car, gasoline engine.....*109
Interchangeable desk units..... *9
Juice extractor .....*230
Laminated plastic dial for gage.....*406
Lawn mower with dual drive.....*407
Liquid server .....*406
Luggage rack for coach.....*469
Luminaire with breather.....*468
Magazine of textile loom.....*543
Messerschmitt 110 airplane. J. E. Thompson .....*338
Metal spinning, standard parts specified .....*639
Molding of plastic for radio.....*408
Multi-spindle rifle drill.....*402
Paper-making machinery .....*583
Paper shredder ..... *10
Pepsi-Cola vending machine.....*404
Plain vs. roller bearings.....*544
Plug reversing motors.....*639
Pneumatic rollers .....*408
Postage meter ..... *8
Pressed steel gears.....*230
Pump, portable centrifugal.....*112
Refrigerator .....*352
Rolls-Royce engine adapted to U. S. production .....*456
Royal typewriter redesigned.....*540
Rubber for corrosion resistance.....*643
Sheet metal stretching press.....*224
Spring mountings dampen press vibration .....*643
Steam iron designed for lightness...*642
Sterilizing agents ..... *60
Stuffing box ..... *11
Swiveling electrical socket..... *60
Tachograph .....*112
Tape dispenser .....*469
TelAutograph transmitting and receiving sets ..... *7
Tension unwinder .....*582
Terminal leads .....*300
Test lamp of transparent plastic..... *12
Tone arm of molded plastic.....*470
Tractor truck frame.....*468
Truck, heavy-duty .....*110
Washer with damped springs.....*346
Water level and air volume control... *12
Welded parts for guns.....*226
Welder has current control by flux diversion .....*297
Window shades, molded, for buses...*408
Window type cooler for home use....*106
Details, right and wrong. Ernest Geiger.*122
Dies—determining springback. Sturm & Fletcher, pt. 1, *526; pt. 2.....*590
Directory of parts and materials. Apr. adv. ..... 111
Drag-link mechanism. Shields & Rossmarin, pt. 1, *113; pt. 2.....*239

**DRIVES:**

Belt drives with idler pulleys. E. N. Kemler (Ref. Bk. Sheets).....*275
Chain drive lengths. John Schappi (Ref. Bk. Sheets).....*333
Designs for speedier production.....*194

## E

**EDITORIALS:**

Design determines production..... 1
Designs for speedier production..... 153
Look before leaping at sub-contracts. 575
New design concepts..... 337
Once there was a republic..... 217
Play hard to win..... 395
Resourcefulness pays dividends..... 101
Scrap separation pays dividends..... 455
Speed-up on progress..... 49
Strong leadership is needed..... 277
The big job that's coming..... 515
We should know more about steel... 633

**ELECTRIC MOTORS, CONTROLS AND DEVICES:**

Aircraft auxiliary power. V. H. Grant.*128
Control circuits ..... *50
Eddy current clutches. M. P. Winther .....*131
Jogging circuits for inching machines with motor drives. J. H. Lewis....*367
Permanent magnets in mechanical applications ..... *26
Photoelectric controls. H. J. Bichsel.*576
Snap-action thermostats. P. R. Lee..*494
Synchronous motors. F. K. Brainard.*258
Wiring for aircraft. L. C. Jones.... *634
Wiring of machines.....*484

**ENGINES, GAS AND STEAM:**

Aircraft auxiliary power. V. H. Grant .....*128
Allison engine. C. F. Nordenholt....*218
Hudson exhaust valve guide.....*525
Pontiac oil cleaner design.....*525
Rolls-Royce engine adapted to U. S. production .....*456

## F

**FASTENINGS:**

Designed for speedier production....*202
Fabric attachments for airplanes. A. M. Blamphin, pt. 1, *585; pt. 2....*645
Fastening methods for flexible sheet materials .....*316
Hooks, design of in bending and direct stress. M. F. Spotts.....*537
Fatigue strength. O. J. Horger, pt. 3.... *22
Fatigue test results. E. C. Hartmann.... *74
Fibre, vulcanized ..... 613
Fibre, vulcanized, with wood core..... 675

**FINISHES:**

Coatings of sprayed powder.....*557
Color psychology. D. L. Hadley..... *81
Fast drying finishes and finishing methods .....*206
Phenolic resin coatings..... 555
Porcelain enameled parts.....*479
Precautions in selection of materials and coatings to avoid service troubles. A. W. Rogers.....*416
Sprayed fabric finishes.....*236
Surface roughness. Stewart Way....*124
White bronze plating.....*676
Forging tolerances .....*190
Forgings and castings. Ernest Geiger.... *72

## G

Gaskets of synthetic materials..... 120
Gears—epicyclic gear train ratios. H. A. Bolz (Ref. Bk. Sheets).....*513
Gears, flexibility of generated. W. F. Plume .....*318
Gilding metal properties. Wilkins & Bunn (charts) ..... 552
Glass for mechanical parts..... 617
Governors, centrifugal. A. H. Church....*409

## H

Heating, applications of radiant energy.. 207
Hooks, design of, in bending and direct stress. M. F. Spotts.....*537

**HYDRAULIC DRIVES, UNITS, CONTROLS AND DEVICES:**

Hydraulic systems .....*657
Hydraulic couplings. R. D. McCausland, pt. 1, *16; pt. 2..... *79
Hydraulic circuits. P. N. Oberholtzer, pt. 1, *429; pt. 2.....*465
Hydraulic piping. Ransom Tyler.....*602

## L

Liquid level controls.....*538

## M

Machines, wiring of.....*484
Magnets, permanent, in mechanical applications ..... *26

**MATERIALS (Metals):**

Alternate steels (charts)..... 550
Antimony-lead alloys ..... 559
Bessemer steels ..... 547
Commercial bronze ..... 610
Copper-zinc alloys. Wilkins & Bunn, pt. 1, *432; pt. 2..... 471
Design of cobalt, chromium and tungsten welded parts. R. L. Lerch.... *66
Gilding metal properties. Wilkins & Bunn (charts) ..... 552
Low alloy steel..... 607
Meehanite castings .....*667
Porous metal bearings.....*496
Precautions in selection of materials and coatings to avoid service troubles. A. W. Rogers.....*416
Properties of 85-15 brass. Wilkins & Bunn .....*670
Properties of wrought brasses, bronzes and other non-ferrous materials suited for screw machine products. D. H. Montgomery..... 104
Stainless steels. S. P. Watkins.....*361
Steels suited for screw machine products. D. H. Montgomery..... 103
Tin supply ..... 623
White bronze plating.....*676

**MATERIALS (Non-metallic):**

Friction materials, pt. 1..... *2
Gaskets of synthetic materials..... 120
Glass for mechanical parts..... 617
Plywood properties .....*561
Porcelain enameled parts.....*479
Precautions in selection of materials and coatings to avoid service troubles. A. W. Rogers.....*416
Properties of synthetic rubber-like materials. J. Delmonte (Ref. Bk. Sheets) ..... 151
Rubber specifications .....*372
Synthetic rubber ..... *33
Synthetic rubbers. J. Delmonte, pt. 1.*116
Vulcanized fibre ..... 613
Vulcanized fibre with wood core..... 675

**MATERIALS (Plastics):**

Acrylic plastics. D. S. Frederick....*461
Cast phenolics .....*309
Extruded, laminated, injection molded and pressure molded parts.....*210
Extruded plastics .....*358
Phenolic resin coatings..... 555
Plastic coatings speed finishing..... 208
Plastics from non-strategic raw materials ..... 566
Polystyrene plastic .....*419, *665
Polystyrene properties ..... 665
Precautions in selection of materials and coatings to avoid service troubles. A. W. Rogers.....*416
Properties of synthetic rubber-like materials. J. Delmonte (Ref. Bk. Sheets) ..... 151
Mechanical movements .....*488

**MECHANICAL TRANSMISSIONS, UNITS AND PARTS:**

Ball and roller bearings. G. A. Ungar, pt. 1, *13; pt. 2.....*231
Ball and roller bearings under fluctuating loads. J. J. Pesqueira.....*138
Ball bearings for thrust loads in centrifugal pumps. Thomas Barish...*286
Ball, roller and needle bearings (Ref. Bk. Sheets), *47; explanation..... 139
Belt drives with idler pulleys. E. N. Kemler (Ref. Bk. Sheets).....*275
Chain drive lengths. John Schappi (Ref. Bk. Sheets).....*333
Chain tensioning devices.....*660
Controls and transmissions in the 1942 automobile models .....*595
Critical speeds of shafts. M. F. Spotts *20
Designs for applying press-fit seal units. R. J. Hinkle.....*370
Fluid power cylinders (Ref. Bk. Sheets) ..... 453
Hollow shafts. J. M. Porter (Ref. Bk. Sheets), pt. 2..... 99
Hudson's electrically-controlled vacuum-operated clutch and transmission .....*518

**MECHANICAL TRANSMISSIONS, UNITS AND PARTS—Continued**

Pivot bearing design. J. H. Goss....*662
Porous metal bearings.....*596
Relief and safey valve mechanisms..*600
Shims for bearings. A. B. Willi.....*313
Shorter sleeve bearings. E. R. Summers .....*530
Splined connections. S. M. Ransome.*119
Studebaker's semi-automatic transmission combined with fluid coupping .....*522
Transmission elements .....*194

**MECHANISMS AND MACHINE ELEMENTS:**

Bearings in die-castings.....*414
Castings and forgings. Ernest Geiger *72
Centrifugal governors. A. H. Church.*409
Chain tensioning devices.....*660
Crank mechanism motions. W. F. Vogel, pt. 1, *301; pt. 2, *374; pt. 3, *423; pt. 4.....*490
Designing for assembly. Ernest Geiger .....*248
Designs for applying press-fit seal units. R. J. Hinkle.....*370
Drag-link mechanism. Shields & Rosmarin, pt. 1, *113; pt. 2.....*239
Fastenings designed for speedier production .....*202
Fastening methods for flexible sheet materials .....*316
Intermittent movements and mechanisms .....*488
Liquid level mechanisms—indicators and controllers .....*538
Permanent magnets in mechanical applications .....*26
Relief and safety valve mechanisms..*600
Rights and wrongs of details. Ernest Geiger .....*122
Vibration damping. F. L. Schwartz..*61
Meehanite castings .....*667

# N

**NEW MATERIALS AND PARTS:**

Actuator for switches, Mu-Switch....*568
Agitator drive, Porter Co.....*387
Alkaline copper plating, United Chromium .....510
Alloy steels, Jessop Steel..... 44
Ameripol-coated fabrics. B. F. Goodrich .....511
Bearing bronze, Monarch Alloy..... 94
Bearing material, Revere Copper & Brass .....95
Bearings, aircraft, Shafer Bearing *43; babbitt lined, Curtis Development *272; bronze on steel, Johnson Bronze *388; flat box, Link-Belt Co. *326; Bearings, miniature, Miniature Precision Bearings *684; needle aircraft, Torrington Co. *270; torflex, Harris Products..... 269
Belt, flat transmission, Manheim Mfg. & Belting 270; high-speed, L. H. Gilmer .....387
Black finish for copper, Alrose Chemical .....386
Blind spots, Cherry Rivet.....*686
Blueprint cabinet .....*94
Blueprinting machine, Charles Bruning *147; C. F. Pease.....*42
Boots, flexible, Automotive Rubber...*570
Brass plating process, du Pont de Nemours .....42
Cable terminal, Burndy Engineering..*42
Carbonyl iron powder, General Aniline .....385
Cellular rubber, U. S. Rubber..... 510
Circle calculator, Interstate Sales....*629
Circuit interrupter, dust tight, Westinghouse Electric *507; Westinghouse Electric .....*447
Clips, assembly, Tinnerman Products.*684
Clutch facings, asbestos, Gatke.....*629
Clutch, Rockford Drilling Machine *329; safety, Flaton Machine Works *42
Clutch, floating plate, Carlyle-Johnson .....*683
Cog-V-belts, Dayton Rubber.....*510
Compass, gear beam. A. P. Bartusch.*148
Contactor, magnetic, Colt's Patent Fire Arms .....*93
Control mounting strip, H. R. Kirkland .....*41
Controller, cam operated, Cutler-Hammer *271; time cycle, Bristol Co. .....*507
Copper plating, Hanson-Van Winkle-Munning .....388
Copying machine, Haloid Co..... *95
Counter, electrical, Automatic Electric *385; reset, Eagle Signal.....*269
Coupling, airflex, Falk Corp. *327; flexible, American Flexible Coupling *568; Farrel-Birmingham *40; Harris Products *628, *686; Lovejoy Flexible Coupling *329; flexible chain, Ramsay Chain *327; piloted, Falk .....*569
Crimped designs in pre-finished metals, American Nickeloid.....*325
Drafting machine, Drafto Co.....*146
Drafting table, Frederick Post *95...*510
Drive, adjustable speed, Westinghouse Electric .....*328
Electric stop watch, Precision Scientific .....*446
Electro-blackening process, Enthone.. 511
Electronic counter, Shallcross Mfg....*508
Enamel, baking, P. D. George 449; machine tool, Sherwin-Williams *450; synthetic, Maas & Waldstein.. 93
Engine mounting, Harris Products...*144
Engine, portable, Kiekhaefer.....*570
Erasing machine, Charles Bruning.... *94
Explosive rivets, du Pont de Nemours.*447
Extruded plastics, Mack Molding.....*511
Extruded polystyrene, Pierce Plastics.*568
Fastener, sheet metal, United-Carr Fastener .....*450
Fiber glass adhesive tape, Industrial Tape .....388
Fiber glass, varnished, Irvington Varnish .....271
Fiber rolls, Rockwood Mfg..... *95
Frequency converter, Clark Laboratories .....*145
Fusible cap, Harvey Hubbell.....*271
Gage, coil winding, Production Instrument .....*385
Galvanized sheet, Newport Rolling Mill .....144
Greases, bearing, Gulf Oil..... 270
Hardness tester, Barber-Colman.....*271
Hose clamp and fittings, Punch-Lok.*328
Hose, seamless metal, Seamlex.....*626
Hose, synthetic rubber, B. F. Goodrich 685
Ignition markers, Irvington Varnish.*330
Immersion tin finish, Alrose Chemical 508
Indicating lamps, Allis-Chalmers.....*448
Ink for marking vinyl-acetate, Acromark .....509
Insulating tubing, Irvington Varnish & Insulator *96.....*144
Journal bearings, Jeffry Manufacturing .....*450
Laminated shims, Laminated Shim Co.*450
Lamp, drafting, Frederick Post *148; tubular, Wabash Appliance.....*385
Lindsay structure, Dry-Zero Corp.....*145
lubricating oil for high temperatures, Colonial Esso Marketers..... 330
Lubricating system, Stewart-Warner.*448
Lubrication, centralized, Trabon Engineering .....*330
Lubricator, automatic, Leiman Bros..*325
Lubricator, simplified, Roto Co.....*685
Matte transfer film for sensitizing metal plates, Eastman Kodak.....*447
Metal coating compounds, American Solder & Flux..... 687
Metal plating on plastics, Metaplast Corp. ..... 43
Meter, vibration frequency, Westinghouse Electric ..... *40
Micrometer, rubber, Instrument Specialties .....*509
Mixers, air driven, Mixing Equipment.*683
Molding compound, Durez Plastics... 93
Motor, aircraft, Dunmore Co. *325; aircraft electric, Air Associates *145; capacitor, General Electric *272; explosion-proof, U. S. Electrical Motors *93; fractional-hp, General Electric *326; gasoline, Briggs & Stratton *144; gear, U. S. Electrical *41; induction, Westinghouse Electric & Mfg. *96; reversible, Westinghouse Electric & Mfg. *627; totally inclosed, Century Electric.....*328
Multi-breaker, industrial, Square D Co. .....*449
Mycalex, General Electric..... 386
Negative temperature coefficient resistors, Keystone Carbon.....*448
Nitriding stainless, Drever Co..... 44
Nozzle, flat spray, Spraying Systems. *96
Nuts, anchor type stop, Elastic Stop Nut .....*683
Nut, self-locking, Elastic Stop Nut *41; wing-style lock, Boots Aircraft Nut ..... *44
Nuts, quick assembly, Tinnerman Products *628; thin hex, Elastic Stop Nut .....*329
Oiler, pressure sight feed, Bowser & Co. *40; thermal, Trico Fuse Mfg...*330
Optical projector, Portman Machine Tool .....*628
Packings of synthetic rubber, B. F. Goodrich ..... 147
Paint, Koroseal, B. F. Goodrich 271; rubber base, Truscon Laboratories 507; rust preventive, Wilbur & Williams ..... 569
Paper, dry developer, Frederick Post Co. ..... 387
Pen filler, C. M. Higgins..... 147
Phenolic molding compound, Durez Plastics ..... 272
Photo-copying device, Hunter Electro-Copyist .....*147
Photocopying equipment, Hunter Electro-Copyist .....*687
Photoelectric inspection and registration control, Photoswitch, Inc.....*446
Physical testing machine, Baldwin Southwark .....*626
Pillow blocks, Ahlberg Bearing *42; precision, Dodge Mfg.....*570
Plastic coating for castings, Durez Plastics ..... 389
Plastic coating for metals, Marley Chemical ..... 326
Plastic handles, Continental Plastics. 629
Plastic molding, Extruded Plastics...*509
Plastic T-square, Engineering Sales..*448
Plugs and receptacles, Pyle-National.*146
Porcelain enamel, Porcelain Enamel & Mfg. ..... 42
Porcelain, Westinghouse Electric & Mfg. ..... 148
Porous metal, Moraine Products.....*446
Pressure adhesive tape, Industrial Tape ..... 446
Print developing machine, Charles Bruning Co. .....*327
Protractor, layout, Tru-Line Corp.... *94
Pump, centrifugal coolant, Gilbert & Barker *388; explosion-proof, Eastern Engineering *386; high-pressure, Baldwin Locomotive *449; Worthington Pump & Mchy. *629; horizontal, American Brake Shoe & Foundry *570; hydraulic, Detroit Universal Duplicator *569; large gear, Hydro-Power System *385; midget air powered, Eastern Engineering *627; portable coolant, Gray-Mills *684; positive pressure, Eastern Engineering .....*92
Pump seal, water, Crane Packing.....*687
Pyrometers, diesel engine, Bristol....*686
Rectifier, industrial, Electron Equipment .....*270
Recycling control, Permutit Co.....*148
Relay, aircraft, Allied Control *269; electromagnetic, G-M Laboratories *326; four-pole, Advance Electric *386; G-M Laboratories *510; General Motors Laboratories *685; micro-switch, Automatic Electric *326; midget, Advance Electric *92; photoelectric, General Electric, *40; United Cinephone *329; sensitive power, Kurman Electric *449; small, Allied Control *93; temperature, General Electric *270; time, Cramer Co. *626; timing, Eagle Signal, *685; Ward Leonard Electric.....*627
Resin, new, Hercules Powder..... 687
Resistors, negative coefficient, Keystone Carbon .....*626
Rheostat, armored, Clarostat Mfg....*686
Rheostat, Hardwick-Hindle ..... *96
Roller chain, Diamond Chain & Mfg. *44
Rubber, synthetic, du Pont de Nemours 570; synthetic sponge, B. F. Goodrich .....*627
Rubberized asphalt, M.G.E. Corp.... 41
S.A.E. 4640 steel, Ryerson & Son..... 94
Seals, synthetic rubber, Miller Rubber .....*629
Setscrew type lug, Ideal Commutator Dresser .....*450
Sheet holders, Cleveland Pneumatic Tool ..... *44
Slide rule, Sum Up Slide Rule.....*683
Solenoid for machine tools, J. S. Barnes .....*509
Solenoids, Jefferson Electric.....*447
Speed reducer, American Pulley..... *40
Splines, accurate, Universal Products.*325
Spray lubricator for graphite, Paasche Air Brush .....*510
Springs, beryllium-copper, Instrument Specialties *568; self-compensating, All-Weather Springs .....*509
Starter, combination, Allen-Bradley *386; magnetic, Arrow-Hart & Hegeman *387; solenoid, Allen-Bradley.*388
Steel, magnetic, Westinghouse Electric ..... 272
Strip-chart recorder, Acromark Corp.*449
Switch, cam limit, Westinghouse Electric & Mfg. *92; circuit breaker, Square D *687; float, Square D *569; foot, Smith Mfg. *328; hydraulic pressure, Progressive Welder *92; lever, Donald P. Mossman *684; metal-clad Micro Switch *269; precision, Acro Electric *508; Mu-Switch *508; pressure, Jefferson Electric *270; range, Square D Co. *148; small mercury, Durakool, Inc. *272; Littelfuse, Inc. *329; splash-proof, Micro Switch *448; time delay, Betts & Betts *269; time, Paragon Electric .....*327
T-connector, Burndy Engineering....*686
Tachometer, Westinghouse Electric..*386
Tapped resistor sections, Sprague Specialties .....*629
Temperature indicator, Leeds & Northrup .....*628
Terminal block, molded, Curtis Development & Mfg.....*627
Thermostat, Curtis Development *508; immersion, D. & M. Mfg *328; remote bulb, Barber-Colman *43; strip, Geo. Ulanet..... *95
Thermoswitches, Fenwal, Inc..... *95
Thrust mechanism, Wesche Electric.. *44
Timer, double reset, Cramer Co.....*145

**NEW MATERIALS AND PARTS—Continued**

Torflex bearings with bronze on steel, Harris Products .....*507
Transmission units, sealed, Fafnir Bearing .....*43
Transmission, variable-speed, Standard Transmission Equipment.....*684
Tube fitting, Weatherhead Co.....*387
Tube fittings, flexible, Harris Products.*569
Tubing, bimetal composite, Bridgeport Brass *326; transparent, Precision Paper Tube .....*271
Valve, corrosive fluid, Barber-Colman *146; micro-action, Campbell Co. *389; oil, Houck Mfg *95; speed control, Hanna Engineering.....*330
Variable speed drive, Given Machinery *147; Reliance Electric & Engineering .....*92
Varnish, synthetic, Irvington Varnish. 327
V-belt, heat-resisting, B. F. Goodrich. 628
V-belt sheaves, Worthington Pump & Machinery .....*116
V-belt structure, Allis-Chalmers.....*446
V-belting, open-end, B. F. Goodrich.. 148
Vibration insulators, Goodrich.....*507
Vise, tool, Hammond Machinery Builders .....*685
Voltage regulator, Westinghouse Electric & Mfg.....*43
Washer, pre-fixed lock, Mechanical Laboratories .....*41
Welding protective device, Lincoln Electric .....*687
Wheel, spark-proof, Divine Bros.....*387
White tracing cloth, Frederick Post Co. .....684
Whiteprint machine, General Aniline & Film .....*568
Wire, range, General Electric..... 626
Wood fibre for industrial use, Wood Conversion .....*683
Zinc blackening, Enthone Co..... 326

## P

**PATENTS:**

Case histories in patent law. H. A. Toulmin, Jr., 36, 321, 360, 441, 503... 622
Engineering the patents. J. F. Cavanagh .....677
Patent marking of products. Henry Cave .....34
Piping, hydraulic. Ransom Tyler.....*602
Plastics see Materials
Plywood properties .....*561
Porcelain enameled parts.....*479
Pressed parts from metal powders.....*192
Pressure vessels, unfired. E. L. Maguire (Ref. Bk. Sheets).....*391

## R

**REFERENCE BOOK SHEETS:**

Aluminum unfired pressure vessels... 394
Ball, roller and needle bearings *47; explanation .....139
Belt drives with idler pulleys. E. N. Kemler .....*275
Chain drive lengths. John Schappi..*333
Epicyclic gear train ratios. H. A. Bolz .....*513
Fluid power cylinders..... 453
Helical spring selection chart. H. A. Illing .....*573
Helical tension spring tables. Paul Klamp, pt. 2, *631; pt. 2..... 689
Hollow shafts. J. M. Porter, pt. 2.... *99
Properties of synthetic rubber-like materials J. Delmonte..... 151
Unfired pressure vessels. E. L. Maguire .....*391

Rubber:

Rubber specifications. D. T. Bradley.*372
Synthetic rubber. J. Delmonte, pt. 1, 116; pt. 2.....*250
Synthetic rubber properties. J. Delmonte (Ref. Bk Sheets)..... 151

## S

Screw machine or die-cast product. Herbert Chase, pt. 1, *306; pt. 2.....*353
Screw machine products. D. H. Montgomery, pt. 1, *102; pt. 2.....*244
Shaft speed. M. F. Spotts..... *20
Shafts, hollow. J. M. Porter (Ref. Bk. Sheets), pt. 2..... *99
Shafts, stepped diameter. A. F. Puchstein .....*652
Shims for bearings. A. B. Willi.....*313
Spinning parts from metals.....*186

**SPRINGS:**

Altering wound springs to modify their deflection rates. A. H. Church .....*474
Helical spring selection chart. H. A. Illing (Ref. Bk. Sheets)..... 573
Helical tension spring tables. Paul Klamp (Ref. Bk. Sheets); pt. 1, *631; pt. 2..... 689
Stampings in place of castings.....*180

**STEEL:**

Alternate steels (charts)..... 550
Bessemer steels ..... 547
Low alloy steel..... 607
Stainless steels. S. P. Watkins.....*361
Steels suited for screw machine products. D. H. Montgomery..... 103

**STRESSES:**

Bending stresses. W. I. Powell.....*290
Composite members; how to find the stress in each material. W. I. Powell .....*242
Design of hooks in bending and direct stress. M. F. Spotts.....*537
Determining springback. Sturm & Fletcher, pt. 1, *526; pt. 2.....*590

## T

Thermostats, snap-action. P. R. Lee.....*494
Tin supply .. ..... 623

## V

Valves:

Relief and safety valve mechanisms..*602

## W

War:

Messerschmitt 110. J. E. Thompson..*338
Rolls-Royce Engine .....*456
U. S. armaments superior. G. F. Nordenholt .....*396

**WELDING:**

Commutator cap reduced in cost and weight by welding.....*254
Fusion and resistance welding, flame cutting and flame hardening.....*154

# INDEX OF AUTHORS

BARISH, Thomas. Ball bearings.....*286

Bichsel, H. J. Photoelectric controls....*576
Blamphin, A. Merrick. Fabric attachments, pt. 1, *585; pt. 2.....*645
Bolz, H. A. Epicyclic gear train ratios..*513
Bradley, D. T. Rubber specifications....*372
Brainard, F. K. Synchronous motors....*258
Bunn, E. S. & R. A. Wilkins. Copper-zinc alloys, pt. 1, *432; pt. 2..... 471
Gilding metal properties.....*552
Properties of 85-15 brass.....*670

CAVANAGH, John F. Engineering the patent ..... 677
Cave, Henry. Patent marking of products 34
Chase, Herbert. Die-cast product or screw machine product, pt. 1, *306; pt. 2 .....*353
Church, A. H. Altering wound springs..*474
Centrifugal governors .....*409

DELMONTE, J. Properties of synthetic rubber-like materials ..... 151
Rubber-like materials, pt. 1, 116; pt. 2 .....*250

FLETCHER, B. J. & R. G. Sturm. Determining springback, pt. 1, *526; pt. 2 .....*590
Frederick, D. S. Acrylic plastics.....*461
Frederickson, Charles E. Container dimensions .....*253

GEIGER, Ernest. Castings and forgings *72
Design for machining.....*122
Designing for assembly.....*248
Goss, J. H. Pivot bearing design.....*662
Grant, Vernon H. Aircraft auxiliary power .....*128

HADLEY, Don Lee. Color psychology.. *81
Hamm, H. W. Endurance limit.....*650
Hartmann, E. C. Fatigue test results.... *74
Hinkle, R. J. Designs for applying press-fit seal units .....*370
Horger, O. J. Fatigue strength, pt. 3..... *22

ILLING, Hans A. Helical spring selection chart ..... 573

JONES, Lester C. Wiring for aircraft....*634

KELLY, H. W. Correct casting design..*135
Kemler, E. N. Belt drives with idler pulleys .....*275
Log-log charts .....*255
Klamp, Paul. Helical tension spring tables, pt. 1, *631; pt. 2.....*691

LEE, P. R. Snap-action thermostats....*494
Lerch, R. L. Design of cobalt, chromium and tungsten welded parts..... *66
Lewis, J. H. Jogging circuits.....*367
Lowe, T. A. & J. E. Thompson. Steel tube fuselages, pt. 4, *28; pt. 5..... *63

MAGUIRE, Edward L. Unfired pressure vessels .....*391
McCausland, R. D. Hydraulic couplings, pt. 1, *16; pt. 2.....*79
Montgomery, D. H. Screw machine products, pt. 1, *102; pt. 2.....*244

NORDENHOLT, G. F. Allison engine..*218
U. S. armaments superior.....*396

OBERHOLTZER, P. N. Hydraulic circuits, pt. 1, *429; pt. 2.....*476

PESQUEIRA, J. J. Ball and roller bearings under fluctuating loads.*138
Plume, W. F. Flexibility of generated gears .....*318
Porter, J. Morgan. Hollow shafts, pt. 2.. 99
Powell, William I. Composite members..*242
Puchstein, A. F. Stepped diameter shafts.*652

RANSOME, S. M. Splined connections..*119
Rogers, A. W. Materials and coatings...*416
Rosmarin, Ernest & Albert Shields. Drag-link mechanism, pt. 1, *113; pt. 2 .....*239
Rudbeck, Paul E. Design of swing cams..*438

SCHAPPI, John. Chain drive lengths...*333
Schwartz, Frank L. Dynamic absorbers.. *61
Shields, Albert & Ernest Rosmarin. Drag-link mechanism, pt. 1, *113; pt. 2 .....*239
Smith, H. E. Can you work this one?....
Spotts, Merhyle F. Critical speeds of shafts ..... *20
Design of hooks.....*537
Sturm, R. G. & B. J. Fletcher. Determining springback, pt. 1, *526; pt. 2 .....*590
Summers, E. R. Shorter sleeve bearings..*530
Appendix .....*619

THOMPSON, James E. Aircraft design .....*278
Messerschmitt 110 .....*338
Thompson, James E. & T. A. Lowe. Steel tube fuselages, pt. 4, *28; pt. 5.. *63
Toulmin, H. A., Jr. Case histories in patent law, 36, 321, 360, 441, 503 ..... 622
Tyler, Ransom. Hydraulic piping.....*602

UNGAR, G. A. Ball and roller bearings, pt. 1, *13; pt. 2.....*231

VOGEL, Dr. Werner F. Crank mechanism motions, pt. 1, *301; pt. 2, *374; pt. 3, *423; pt. 4.....*490

WATKINS, Stanley P. Stainless steels..*361
Way, Stewart. Surface roughness.....*124
Wilkins, R. A. & E. S. Bunn. Copper-zinc alloys, pt. 1, *432; pt. 2..... 471
Gilding metal properties.....*552
Properties of 85-15 brass.....*670
Willi, Albert B. Shims for bearings.....*313
Winther, M. P. Eddy current clutches...*131
